Web Developer

Objective

Motivated and detail-oriented M.Sc. Computer Science student seeking an entry-level position in software development. Eager to apply my strong foundation in web technologies and problem-solving skills to contribute to real-world projects and learn industry best practices within a collaborative team environment.

Technical Skills

Frontend: JavaScript, ReactJS

Backend: NodeJS, ExpressJS,

Programming: Java, Python,

Databases: MongoDB, SQL

Soft Skills

Adaptable

Communication

Time Management

Academic Profile

The Madura College
M.Sc. Computer Science
2024-Present
7.1 CGPA

The Madura College
B.Sc. Computer Science
2021-2024
7.4 CGPA

Certifications

Python – SSI Institute
Excel – Self-learning

Projects

Weather API Project Link

- I have developed a responsive weather application using HTML, CSS, and JavaScript. Ensuring a seamless user experience across desktop, tablet, and mobile devices
- Integrated a third-party weather API to retrieve real-time weather data, allowing users to search for any city and view detailed weather information such as temperature, humidity, and weather conditions
- Tech stack used: HTML, CSS, JavaScript

Bus Route Finder App Link

- Developed a MERN Stack Bus Route Finder application that enables users to search and visualize public bus routes in Madurai.
- Built a responsive and user-friendly interface using ReactJS and Bootstrap, allowing users to easily navigate routes, stops.
- Designed and implemented RESTful APIs using Node.js and Express.js to handle route data requests and serve information from a MongoDB database.
- **Tech stack used**: ReactJS, Node.js, Express.js, MongoDB, Bootstrap
